

FIREFIGHTERS TRAINING COUNCIL ACT (EXCERPT)
Act 291 of 1966

29.369 Preparation and publication of standards; statement designating training officer or training coordinator; training material in electronic format; examination; waiver; "armed forces" defined; review and monitoring of state and federal standards; recommendations; reciprocity; automatic certification under subsection (9).

Sec. 9. (1) The state fire marshal, with the approval of the council, shall prepare and publish standards with due consideration to varying factors and special requirements of organized fire departments in the following areas:

(a) Advisory standards of physical, educational, mental and moral fitness, which shall govern the recruitment, selection, and appointment of firefighters.

(b) The approval by the council of firefighter training schools. The standards shall address, at least, the following issues:

(i) The qualification and certification of instructors.

(ii) The courses of study, attendance, record-keeping requirements, equipment, and facilities.

(iii) The visitation and evaluation of instructors and schools.

(c) The establishment of subordinate regional training centers in strategic geographic locations in order to serve the greatest number of organized fire departments that are unable to support their own training programs.

(2) Each organized fire department shall file a statement with the council designating at least 1 training officer or training coordinator for the fire department. If a training officer or training coordinator is changed, the organized fire department, within 7 days of the change, shall file a statement notifying the council of the change.

(3) The council shall develop and provide to each organized fire department, upon request of the organized fire department and at no charge, as proposed by the state fire marshal, training material in an electronic format to be used in training firefighters. The electronic training material shall be based on the standards for fire fighter I and fire fighter II set forth in "Standard for Fire Fighter Professional Qualifications", National Fire Protection Association standard no. 1001.

(4) The state fire marshal, with the approval of the council, shall develop and administer an examination, which shall include a practical demonstration, a written or oral test, or a combination thereof, to determine a person's competency in regard to the knowledge and skill requirements set forth in standards for fire fighter I and fire fighter II set forth in "Standard for Fire Fighter Professional Qualifications", National Fire Protection Association standard no. 1001. The council, upon the request of an organized fire department, shall administer the examination in each county at least once every year. The examination shall be administered in 2 parts. Part 1 shall test the knowledge and skill requirements set forth in fire fighter I, and part 2 shall test the knowledge and skill requirements set forth in fire fighter II. The examination may be retaken, as necessary, upon request from an organized fire department.

(5) Except as provided in subsections (7) and (9), by 12 months after a person's hiring date as a full-time firefighter, the person must pass both part 1 and part 2 of the examination to be eligible for continued or permanent full-time employment as a firefighter.

(6) Except as provided in subsections (7) and (9), by 24 months after a person's appointment date as a volunteer or paid on-call firefighter, a person must pass part 1 of the examination to be eligible for continued volunteer or paid on-call service as a firefighter.

(7) The examination requirements under this section do not apply to a person who is employed or under appointment as a firefighter on October 1, 1988, unless the person subsequently changes his or her status from a volunteer or paid on-call firefighter to a full-time firefighter. The state fire marshal may waive the examination requirements under this section for a veteran who served in and is separated from the armed forces and provides a form DD214 or DD215 or any other form that is satisfactory to the department that demonstrates that he or she was separated from service with an honorable character of service or under honorable conditions (general) character of service, upon verification that the veteran completed firefighter training that meets the standards for fire fighter I and fire fighter II set forth in "Standard for Fire Fighter Professional Qualifications", National Fire Protection Association standard no. 1001, while serving in the armed forces of the United States. As used in this subsection, "armed forces" means that term as defined in section 2 of the veteran right to employment services act, 1994 PA 39, MCL 35.1092.

(8) The state fire marshal, with the approval of the council, shall review and monitor the state and federal standards relating to live fire training exercises in structures and make recommendations to the general industry safety standards commission for any new or modified standards necessary for the protection of

firefighter trainees.

(9) The state fire marshal shall waive the examination requirements under this section and extend reciprocity certification to a firefighter from another state who seeks to work as a firefighter in this state if the firefighter was certified in the other state after successfully completing a program that meets or exceeds the standards for fire fighter I and fire fighter II set forth in "Standard for Fire Fighter Professional Qualifications", National Fire Protection Association standard no. 1001 by an international accreditation fire service organization.

(10) The presentation of records evidencing certification under subsection (9) shall automatically result in certification by this state.
